

# Lunar New Year Lanterns!

## Happy Lunar New Year!

You can celebrate this event with your Bingsters by making some beautiful Bing-themed Lunar New Year lanterns. These colorful lanterns are easy to put together and perfect for decorating...

### You will need:

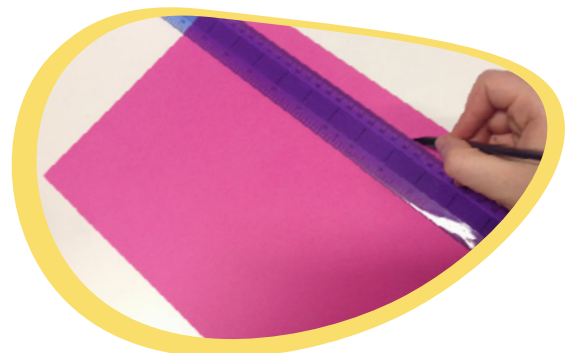

- Construction paper  
(You could use Bing's colors - red, green, black and yellow - and sparkly pink for Sula)
- Stapler
- Safety scissors
- An eraser
- A ruler
- Pens, pencils, stickers, glitter or anything your Bingster wants to decorate with.

### To make them:

**Step 1.** Place your paper lengthwise and cut off a 3/4 inch strip at the end. You can use this later as your lantern handle.

**Step 2.** Now turn your paper the other way around and draw a line 3/4 inch in on either side. If you use pencil you'll be able to erase these later.

Please use caution and your best judgement about which steps your Bingster can safely be involved in.

# Now for the creative bit!

**Step 3.** Your Bingster can decorate the lantern making it all bright and colorful. Try adding glitter or gold and silver pens for some extra New Year sparkle!

**Step 4.** After your Bingster has finished decorating, fold the paper in half lengthwise.

**Step 5.** You can now take your safety scissors and cut fringes into the folded sheet, stopping where you have drawn your pencil line.

**Step 6.** Unfold and erase the pencil lines.

**Step 7.** Fold your card horizontally into a cylinder and staple it together at the top and bottom. (Please make sure this is done by a grown-up). Your lovely lantern is starting to take shape.

**Step 8.** You can staple the extra handle strip in place at the top of the lantern.

**Step 9.** Now it's time to hang up your lanterns and start celebrating Lunar New Year with Bing!

## Celebrating... it's a Bing thing!
